

POWER PLATFORM SOLUTIONS BY

# Odyssey Partners Consulting

Leverage Microsoft Power Platform software to solve business challenges with custom application solutions.

# Power Platform Solutions

Odyssey's Power Platform Application Solutions streamline operational efficiency and enhance decision-making across your organization. By integrating tools like PowerApps, SharePoint, and Power BI, we offer solutions for real-time time tracking, automated expense approvals, and safety management. These services work together to optimize workflows, improve visibility, and foster proactive engagement.

## Bright Ideas

Centralize idea submission, review, and approval to drive process improvements, foster innovation, and create a more engaged workforce.

## Capital Expense Requests

Streamline capital expense submissions and approvals with automated workflows, for faster decision-making, improved visibility, and reduced errors.

## Safety Incident Management

Centralize incident reporting, automate compliance, and improve workplace safety with streamlined, OSHA-compliant processes.

## Safety Conversations

Enabling real-time reporting of safety observations and fostering proactive engagement through mobile access and instant notifications.

# Bright Ideas Portal

Are you missing out on valuable insights and innovative solutions because your employees' ideas are scattered and overlooked? Transform how your organization innovates by elevating employee voice to capture a steady stream of actionable ideas.

**Bright Ideas** is an idea management software and employee engagement tool for organizations designed by Odyssey Partners.

## Business Challenges:

- Fragmented communication and disorganized idea collection
- Limited employee engagement across departments
- Inefficient evaluation and prioritization of ideas
- Lack of transparency and feedback on submitted ideas

## Who Benefits:

- Business leaders seeking to streamline innovation processes
- Innovative managers who want to engage employees and capture valuable insights

## Bright Ideas Solution Offers:

- A centralized platform for idea submission and collaboration
- Structured evaluation tools for efficient decision-making
- Transparent workflows with real-time updates and feedback loops

# Capital Expense Requests

Are your organization's capital expense requests slipping through the cracks? Gain control over approvals, improve transparency, and align strategic spending within your existing Microsoft environment.

**Capital Expense Requests** automates and streamlines the process, making it easier to submit, review, and track capital expense requests

## Business Challenges:

- Disorganized requests cause delays and lost submissions
- Inconsistent documentation slows approvals
- Misalignment with business goals impacts strategic spending
- Limited tracking hinders post-investment ROI assessments

## Who Benefits:

- Finance & Operations Managers needing a transparent, organized CER workflow
- Project Teams aligning requests with strategic priorities
- Executives & Approvers accessing a centralized, trackable CER system

## Capital Expense Requests Solution Offers:

- Automated workflows standardizing submissions and approvals
- Integrated analytics linking CER data to ERP budgets with Power BI
- Centralized storage enabling CER tracking in SharePoint or Teams
- Custom fields facilitating efficient approvals and faster decision-making

# Safety Conversations

Struggling to create a culture of safety in your organization? Improve workplace safety and accountability with a streamlined communication system that encourages proactive conversations and timely action.

**Safety Conversations** is a comprehensive communication tool designed to enhance safety culture and reduce workplace injuries.

## Business Challenges:

- Hesitancy among employees to report safety concerns
- Lack of structured follow-up on safety issues
- Communication gaps between departments on safety matters
- Inconsistent documentation of safety conversations

## Who Benefits:

- Safety managers seeking to boost employee engagement in safety initiatives
- Supervisors aiming to track, document, and manage teams' safety discussions

## Safety Conversations Solution Offers:

- A centralized platform for easy safety reporting and issue tracking
- Automated workflows guiding incidents through review, approval, and resolution
- Tools to facilitate proactive safety discussions between supervisors and teams
- Real-time tracking and updates to ensure transparency in safety communications

# Safety Incident Management

Are manual safety processes slowing down your incident response times? Transform your approach to workplace safety with streamlined, automated incident management that reduces risks and ensures compliance.

**Incident Management** automates reporting, tracking, and resolution of safety incidents, enhancing data accuracy and efficiency

## Business Challenges:

- Manual data entry prone to errors and slow reporting
- Inefficient tracking of incidents and follow-ups
- Compliance risks due to failure to meet OSHA standards
- Resource drain from repetitive, time-consuming tasks

## Who Benefits:

- Safety Managers needing to automate incident resolution and compliance
- Operations Leaders seeking visibility for data-driven safety decisions
- Compliance Officers focused on maintaining accurate audit records

## Incident Management Solution Offers:

- Automated workflows to simplify reporting and tracking
- OSHA-compliant reporting that meets all regulatory standards
- Customizable processes for tailored incident management
- Data analytics to identify trends and improve safety practices

# Lets Work Together

1

## Schedule a Consultation

Contact us to schedule an initial consultation where we can discuss your specific needs and goals.

2

## Stakeholder Meeting

We will set up a meeting with your key stakeholders to kick off the Discovery Phase.

3

## Proposal Submission

Based on our initial discussions, we will submit a detailed proposal outlining our approach, timeline, and pricing.

4

## Project Kickoff

Once the proposal is approved, we will initiate the project and begin the Discovery Phase.

5

## Continuous Collaboration

We will work closely with your team throughout the engagement to ensure that the project meets expectations and delivers value.
